Dear Congresswoman Kelly,

I enjoyed when you came the other day. It was pretty cool when I got to come up and be a part of the legislative group. I really thought that it was cool that some of us got to be a part of and other got to watch how statements become laws. I thought that card that you showed us was awesome; the card that shows how you vote and your name goes on the board. I got that book and I'm anxious to read it. I was also wondering, is it hard to be a congresswoman?

Sincerely,
Giuliana
